

Direct Seeding Solutions for Your Farm - Getting More for Less

FREE

**COMMUNITY
EVENT**

LUNCH PROVIDED

MARTINDALE DIRECT SEEDING WORKSHOP

**Sunday
25th November
9.30am- 2.30pm**

Let's not beat around the bush – scrub is good grub!

Learn how direct seeding of native feed and fodder species, fencing and appropriate grazing management can create a landscape of abundance and enhance the natural and financial values of your property.

Salt bush, Wattles, native grasses - these plants not only cope best with tough soil and climatic conditions, they provide highly palatable feed for your farm animals.

Book your place now in this free workshop to learn how to grow and manage native feed species on your farm!

Location: Martindale Hall, followed by a field trip to Springdale Farm for direct seeding demonstration (Transportation to Springdale farm is provided)

More Information

Spaces are limited. To find out more about the workshop and to reserve your place, please contact:
